Lead exposure is dangerous for young children and can cause permanent brain damage.

- 🏠 In Minnesota, an average of 700 children are poisoned by lead each year.
- 🏠 It costs \$2,500/unit to make a unit LEAD SAFE from lead paint hazards.
- 🏠 A child disabled by lead poisoning may utilize \$100,000 per year for the rest of their life in State, Federal, and Medicaid benefits.
- 🏠 This bill allocates \$1 million/year to ensure more lead-safe homes in urban and rural areas.

**Will you support the Lead Safe Homes bill?

Faith in Action

The great orator, Frederick Douglass, told us this – **“Power concedes nothing without a demand.”**

We must demand all our systems and organizations do what is needed to guarantee everyone, without exception, a safe, decent, accessible, and affordable home.
